Dear «Owner_Name»:

Re: Phase 1 Wellhead Protection Plan
Submission Deadline
PWSID# «PWSID»

As a small public water supply system, you are aware the deadline for submitting your Phase 1 Wellhead Protection Plan is March 28, 2002. Based on our review of Phase I delineations already submitted to the agency, we believe that, for some systems, it may be beneficial to receive IDEM's determination on the acceptability of their delineation prior to finalizing the inventory of potential contaminant sources required by 327 IAC 8-4.1-8(3), and the wellhead protection area management plan required by 327 IAC 8-4.1-8(4).

Therefore, IDEM will also consider plans to be timely filed when one of the following conditions is met:

1. The public water supply system submits all information required by 327 IAC 8-4.1-8 as one package on or before March 28, 2002; or
2. The public water system submits all information required by 327 IAC 8-4.1-8 (1), Local Planning Team; 327 IAC 8-4.1-8 (2), Delineation; and 327 IAC 8-4.1-8 (5), Contingency Plan, by March 28, 2002 and subsequently submits all information required by 327 IAC 8-4.1-8 (3), Inventory of Contaminant Sources, and 327 IAC 8-4.1-8 (4), Management Plan, within ninety (90) days of receiving IDEM's final written determination on the acceptability of the delineation submitted on or before March 28, 2002.

We believe the above approach will result in Phase 1 Wellhead Protection Plans that meet both the needs of the community and IDEM. If you have additional questions or need more information, please contact Martha E. Clark, Chief of the Ground Water Section at (317) 308-3388.

Sincerely,

Patrick Carroll, Chief
Drinking Water Branch
Office of Water Quality
